DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Saito et al, which has a priority document filed 10/13/99 (No. 11-291270). This was described and published prior to the applicant's invention. The document to Saito et al discloses the backpressure adjusting mechanism and the gas circulating means., as well as, first and second exhaust mechanisms.

Conclusion

The other prior art submitted on the PTO-1449 is made of record and not relied upon is considered pertinent to applicant's disclosure.
